

## **FX Solutions Adds Institutional Partnership Executive**

**Saddle River, New Jersey, June 25, 2008** – FX Solutions ([www.fx solutions.com](http://www.fx solutions.com)), an IT-driven online foreign exchange brokerage with customers in more than 50 countries, today announced the hiring of Ira Guberman as Senior Vice President, Institutional Sales.

Guberman will be responsible for establishing white label partnerships and increasing the number of introducing brokers, commodity trading advisors and commodity pool operators utilizing FX Solutions' Global Trading System platform.

Guberman brings over 20 years of international business expertise and previously served as Marketing and International Business Director at WSD Financial (NZ) Ltd, a New Zealand-based financial services firm providing online foreign exchange and futures trading.

"We are excited to bring someone of Ira's experience on board," said Tom Plaut. "The interest in retail forex trading is at an all-time high, and FX Solutions is well-positioned to help banks and other financial institutions meet this demand."

In February 2008, FX Solutions merged with City Index Group, a London-based provider of retail derivative trading services, including CFDs, forex and spread betting.

### **About FX Solutions**

FX Solutions is a leading US-based online foreign exchange broker serving both retail and institutional customers. The Company provides IBs and White Label Partners FX trading and risk management in over 100 countries through its Global Trading Systems (GTS) platform. Regulated by the CFTC and NFA, FX Solutions' custom-engineered suite of applications includes one-click trading, automated execution of orders, a proprietary price feed and competitive fixed-spread pricing - resulting in consistently low executable spreads. FX Solutions has websites and complete customer support in four languages.

FX Solutions' Global Trading System platform, known as GTS, was built to be scalable and flexible, serving the needs of retail clients and institutional partners. The GTS platform provides for over 99% automated execution of all orders\*\* as well as a suite of professional trading features and tools. Recently, FX Solutions announced the launch of two new products: GTS Web, a web-based platform and FX AccuCharts 7.0, a charting package that has over 150 indicators and allows for trading from the charts.
