

FX Solutions' GTS Named Best Online Forex Trading Platform by e-Forex Magazine

Saddle River, New Jersey, January 30, 2009 – FX Solutions (www.fx solutions.com) was ranked the #1 Forex trading platform in an independent research study published in the February 2009 edition of *e-Forex Magazine*.

The study, conducted by *e-Forex* and *ForexDatasource.com*, ranked online Forex brokers on performance in four key areas deemed most important to Forex traders: regulatory oversight, security of funds on deposit, trading platform features, and quality and stability of trade execution. FX Solutions earned an aggregate score of 8.6, compared to an industry's average score of 7.4, outscoring all other competitors in the study.

"We are thrilled to receive this distinction, particularly the high marks awarded for our Forex platform and execution," said Tom Plaut, Co-CEO of FX Solutions. "Our mission has always been to provide Forex traders with the best trading platform in the world. Having others recognize us in this way is a great reward for all of us at FX Solutions."

e-Forex Magazine, which published the results in an article titled, "The Importance of Technology in Forex Broker Selection Process," stressed the importance of superior technology and trade execution to online traders who may be in the market for a Forex trading platform.

About FX Solutions

FX Solutions is a leading U.S.-based online foreign exchange broker serving both retail and institutional customers. The Company provides IBs and White Label Partners FX trading and risk management in over 50 countries through its Global Trading System (GTS) platform. Regulated by the CFTC and NFA, FX Solutions' custom-engineered suite of applications includes one-click trading, automated execution of orders, a proprietary price feed and competitive fixed-spread pricing - resulting in consistently low executable spreads. FX Solutions has websites and complete customer support in four languages.

FX Solutions' Global Trading System platform, known as GTS, was built to be scalable and flexible, serving the needs of retail clients and institutional partners. The GTS platform provides for over 99% automated execution of all orders* as well as a suite of professional trading features and tools. Recently, FX Solutions announced the launch of two new products: GTS Web, a web-based platform and FX AccuCharts, a charting package that has over 150 indicators and allows for trading from the charts.
